

Microsoft Azure for HPC

Alex Sutton

Group Program Manager

HPC and Batch Computing

alex.sutton@microsoft.com

Mission

Broaden Reach and Radically Simplify
HPC in the Cloud

A decorative graphic consisting of several overlapping, semi-transparent rounded rectangles in various shades of blue, positioned in the lower right quadrant of the slide.

Principles

Enterprise Ready Platform

Use What You Want

Run Jobs Not Clusters

Enterprise Ready

Hyperscale worldwide

Compute and compliance

Virtualized RDMA

Use What You Want
Microsoft Azure is Cloud
Linux? Really!

Run Jobs Not Clusters

Focus on domain not infrastructure

Help to manage access and cost

Platform services to build solutions
