

Storage in the HPC Center of Future

DDN Supercharges HPC & AI Workloads Anywhere

Application & Data Acceleration

- Low Latency Multi-Protocol
- Run at the edge

Metadata

- Massive tagging
- Searchable SQL Syntax

Multi-tenancy

- SLA Capacity & Performance
- Fair share
- Elastic

DataCenter, GPU and Cloud Efficiencies and Cost Reduction

- SDS / Fully Hardware Agnostic / 100% Cloud Native
- Network Erasure Coding / Dynamic
- Fault Domain

Enterprise Capabilities

- Data Reduction
- Secure Encryption
- Snapshot

DDN's Data Intelligence Platform is Powering the World's Workload Transformation

ddn xFusion AI

- ✓ Maximum Efficiency AI Training at Any Scale: Extreme throughput file platform

- ✓ Edge-Cloud-Core, Inference and Training, Model and Data Governance

DDN DATA INTELLIGENCE

Trusted by Leaders, Proven at Scale

“NVIDIA Is **Powered By DDN**

...Without DDN, NVIDIA Supercomputers **Wouldn't Be Possible.**”

Adrienne Jan
Chief Product Officer, SCALEWAY

With other Storage solutions we typically tend to see slowdown or levelling out of the performance as the demand for the data grows...

... so we've been blown away by the quality and linearity of the DDN storage solutions

Thank you

Mark Taylor
Senior Systems Engineer
Data Direct Networks, Inc.
